Summary

Data Science and AI enthusiast with strong skills in Python, SQL, Machine Learning, and data visualization. Built end-to-end projects including recommendation systems, chat analyzers, and RAG-based AI assistants.

Education

Indian Institute of Information Technology, Kalyani	2024 – Present
B.Tech in Computer Science and EngineeringCGPA:	9.03/10.0

Leadership Experience

AI/ML Lead, GDG On Campus IIIT Kalyani	2025 – Present
- Conducted workshops on Machine Learning, Deep Learning, and data analysis. - Mentored students on AI and NLP projects.	
General Secretary (Technical Affairs), Gymkhana IIIT Kalyani	2025 – Present
Organized coding competitions and workshops for 200+ participants.	

Projects

WhatsApp Chat Analyzer	Live
Analyzed 50K+ messages and built dashboards to visualize chat patterns.	
Book Recommendation System	Live
Built a TF-IDF and cosine similarity-based recommendation engine for 10K+ books.	
Enterprise Knowledge Copilot (RAG)	Ongoing
Developed a document Q&A assistant using LangChain and FAISS.	
LangGraph AI Chatbot	Live
Created a stateful chatbot with LangGraph and SQLite memory.	

Technical Skills

Languages: Python, C, C++, Java
Data Analysis: Pandas, NumPy, SQL, EDA, Data Cleaning
Machine Learning: Scikit-learn, NLP, Deep Learning
LLM Tools: LangChain, LangGraph, FAISS
Visualization: Matplotlib, Seaborn, Streamlit
Core CS: DSA, OOPs
Tools: Git, GitHub

Achievements

- 2nd Runner-Up, InnovateX Hackathon (GDG IIIT Kalyani)
- Winner, Botball Robotics Competition
- 2nd Runner-Up, Maze Solver Robotics Competition
- Codeforces Rating: 943

Certifications

Data Analysis with Python – freeCodeCamp
